Dt:01-09-2023

Guidelines from TSMC for Grant Internship & Provisional Registration & Final Medical Registration to Foreign Medical Graduates.

It is brought to the notice that the Board of Governors in Supersession of MCI has issued an Advisory regarding accepting of Internship of Foreign Medical Graduates in Ref No. MCI-203(1) (Gen.)/2020- Regn./12442 Dated 30.07.2020

In the above Advisory it is stated that the Internship training completed by an Indian National during his / her MBBS course in China was / is acceptable for the purpose of grant of permanent registration under section 13 (3) of Indian Medical Council Act, 1956. It is not mandatory for such students to do 12month internship training in India.

The Board of Governors in Supersession of Medical Council of India further stated that, it is in accordance with provisions of Indian Medical Council Act 1956 in respect of MBBS or equivalent primary qualification obtained by an Indian National from any other country also.

That, that the Internship training completed by an Indian National during his / her MBBS or equivalent course in China or any other foreign country is acceptable for the purpose of grant of permanent registration under section 13 (3) of Indian Medical Council Act, 1956 provided that,

I. For candidates who have completed their under graduation or internship on or before 30th June 2020.

- a) The minimum duration of the course (excluding the period of study of local language) should be 4 years with 75% attendance done

Page No. 1

with practical training and the course not through online mode.

- b) The duration of internship training should be one year, done in the campus and not through online mode.

It is also decided that, previously provisional registration certificates were issued to candidates whose course duration was 4 years. Also the fact that the students had returned to India in the early part of 2020, due to the corona pandemic was also considered. Out of the 4 years course duration, the clerkship or clinical rotation done in the 4th year of course will be considered as part of the undergraduate academics and such candidates have to undergo internship training either in India or abroad.

Prior to the notification by the MCI dated 30.07.2020, all these candidates who had done 4 years UG course in some foreign countries, returned to India and underwent internship training. Now, candidates are trying to take an advantage of the MCI notification and seeking final registration when the total course duration (including internship) is four years only and the same will not be permitted by the Telangana State Medical Council.

It is also decided that for the Candidates, who had completed part of their mandatory internship training in the campus and remaining part of their internship through online mode, such online mode of internship training will not be accepted. Such candidates should undergo internship for the period equivalent to their online training period either abroad or in India, in any of the Government or Private Institutions, approved by the MCI/NMC.

II. For candidates who are undergoing under graduation or internship training-In the academic session from 2020.

- a. The minimum duration of the course (excluding the period of study of local language) should be 4 ½ years with 75% attendance done with practical training and the course should not be through online mode.
- b. The duration of internship training should be one year, done in the campus and not through online mode.
- c. It is further decided that, before accepting their application for issue of provisional or final registration, the passport of such candidates should be verified to ensure the minimum duration of the course and 75% attendance of the candidates and it is also to be ensured that the course or training is not through online mode.

III. And also the TSMC is decided to applications & granting registrations for permanent / final medical registrations for FMG's.

1. To consider the applications for Provisional Registration only to do internship in Telangana State irrespective of year of completion of their degree by their respective Institutes who passed their FMG Examination in current academic year.
2. To consider the applications for FMGs who came back to India during the Covid-19 & from Russia-Ukraine war etc., **could not go back**, stayed back in India, received instructions online, completed the course, declared to have passed their Degree Examination, obtained their degree & successfully passed the FMGE-**to improve their clinical practice (which could not be physically attended) be shall undergo 24 months (two years) of Internship.**
3. To consider the applications for FMGs who came back to India during the Covi-19 & Russia-Ukraine war etc and **could go back to that Country**, received instruction offline (irrespective of the period of their stay) obtained their Degree, successfully **and passed the FMGE- shall undergo 12 months of Internship, as per the NMC (Compulsory Rotating Medical Internship) Regulations -2021.**
4. To Consider the applications for Permanent Registration who completed their compulsory Rotating Medical Internship at Asian countries i.e. Dubai, UAE, Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri-Lanka.
5. To Consider the applications who are seeking provisional or permanent registration shall not have to qualify the Screening Test, if he/she holds an Under Graduate medical qualification from Australia/Canada/New Zealand/United Kingdom/United States of America and the holder thereof also been awarded a Post Graduate medical qualification in Australia/Canada/New Zealand/United Kingdom/United States of America and has been recognized for enrolment as medical practitioner in that country”.
